The image shows a 15x15 grid of squares. The squares are arranged in a 15x15 grid. The squares have black outlines. Some squares have colored borders: red, teal, magenta, or blue. The colored squares are arranged in a symmetric pattern. Red squares are at the corners and midpoints of the outer edges. Teal squares are at positions (row, col) where both row and col are even (1-indexed). Magenta squares are at positions where both row and col are odd. Blue squares are at positions where row and col are both even or both odd, but not at the corners or midpoints.
